

# Frog Dissection Online Introduction

**Directions:** Complete the following steps in order to prepare for the frog dissection next week.

---

**Step 1:** *Using the resources listed below, create a notes sheet containing all information you need to know about frogs and their external and internal anatomy.*

[Frog Dissection – Background & Information \(top of the website\)](#)

[Frog Dissection Guide](#)

*\*Note: You must print any online created notes sheets by the end of class.*

---

**Step 2:** *Generate a list of lab preparations, expectations, and safety procedures that will be necessary when completing this lab.*

[Frog Dissection – Procedure \(toward the bottom of the website\)](#)

---

**Step 3:** *Complete each of the following online dissections in order to practice.*

[Online Frog Dissection 1](#)

[Virtual Frog Dissection](#)

---

**Step 4:** *Complete the following online assessments to test your knowledge before we go into the dissection!*

[Frog Dissection Diagram](#)

[Frog Test 1](#)

[Quia Quiz](#)

---

**Step 5:** *View pictures to prepare for what you will be seeing.*

*\*Note\* If you believe the pictures will bother you, you may skip this step!*

[Dissection Photos](#)

[More Photos](#)

---

**Step 6:** *Play some review games to be familiar with the vocabulary!*

[Game 1](#)

[Game 2](#)

[Game 3](#)

---

**Step 7:** *Watch a few of these videos in order to prepare for the dissection.*
